Gross weight:	0.50 kg

DATASHEET

SKYWASH

SKYWASH is a mild detergent designed for gently cleaning heavily soiled climbing ropes. Especially with equipment used regularly, dirt, dust, and deposits can make handling and maintenance more difficult. SKYWASH was specifically developed to reliably remove dirt without damaging the material.

This makes the cleaner a practical addition to the professional care of ropes in everyday work, during training, or in regular use. Thanks to its mild formulation, SKYWASH combines effective cleaning with gentle treatment of the material. The product helps users keep their equipment clean, well-maintained, and ready for use. As an original SKYLOTEC accessory, SKYWASH fits perfectly into a professional maintenance and equipment management plan for personal protective equipment and rope technology.
