MINDER S1

The MINDER S1 pulley is designed for work-at-height professionals and for setting up on-site rescue systems. Its special side plates are designed for use with a Prusik friction hitch in progress-capture systems. Compact and lightweight, it provides good efficiency for handling moderate loads.

Short Description Lightweight, high efficiency Prusik pulley

Selling Points

- Use in progress-capture systems:
 - Moving side plates designed for use with a Prusik friction hitch
- Designed for handling moderate loads:
 - Sheave mounted on sealed ball bearings provides high efficiency
 - Lightweight and compact, ideal for everyday work-at-height use or for on-site rescue
 - Large attachment holes fit up to two carabiners for ease of use
 - Specific side plate design protects the rope path
 - Attachment holes allow most European-standard carabiners to rotate

Specification

- Rope compatibility: 6 to 11 mm
 - Sheave diameter: 25mm
 - Ball bearings: Yes
 - Efficiency: 91%
 - Maximum working load: 5kN
 - Breaking strength: 23kN
 - Weight: 71g
 - Certification(s): CE EN 12278, UIAA, NFPA Technical Use, XF 494 Light
 - Material(s): Aluminum, stainless steel
-
