COEUR STAINLESS

High quality stainless steel bolt hanger for typical exterior uses. It is available for 10 or 12 mm diameter bolts.

Short Description High quality stainless steel bolt hanger for typical exterior uses (pack of 20)

- Selling Points
- 316L stainless steel offers excellent resistance to corrosion in typical exterior environments
 - Easy clipping:
 - the wide, ergonomic connection hole facilitates carabiner clipping
 - the width of the hole allows installation of two carabiners at the same time
 - Prevents wear of connectors: the thickness of the hanger and the rounded edges of the connection hole limit wear of connectors
 - Hanger anti-rotation system: textured back keeps the hanger from turning when the anchor is being installed or when it is heavily laterally loaded during use
 - Available for 10 or 12 mm bolts

Note: Items sold in packs are not marked for individual resale.

-
