

Univers	Professional
Type	Verticality
Category	Lanyards and energy absorbers
Subcategory	Fall arrest lanyards

## JANE-I

JANE-I is a non-adjustable dynamic rope lanyard that can be combined with an ABSORBICA energy absorber to make a single lanyard with energy absorber. The plastic sheath helps hold the carabiner in position and facilitates clipping while protecting the termination from abrasion. It can be used to set up a temporary anchor. It is available in four lengths: 60, 80, 100, and 150 cm.

When combined with an ABSORBICA energy absorber, it makes a single energy-absorbing lanyard with a maximum length of two meters.

The plastic sheath helps hold the carabiner in position and facilitates clipping while protecting the termination from abrasion.

---

Short Description    Single lanyard for making a fall-arrest lanyard

---

Selling Points

- Non-adjustable dynamic rope lanyard that can be combined with an ABSORBICA energy absorber to make a single energy-absorbing lanyard with a maximum length of two meters
- Easy handling, thanks to the plastic sheath that holds the carabiner in position and facilitates clipping while protecting the termination from abrasion
- Offers several configurations for setting up a temporary anchor: directly to an anchor point or around a suitable structure
- Space for individual identification markings on the plastic sheath to track the equipment throughout its lifespan
- Available in multiple different lengths: 60, 80, 100, and 150 cm

---

Specification

- Certification(s): CE EN 354, EN 795 type B, EAC, ANSI Z359.3; CSA Z259.11, GB 30862-Type B
- Material(s): Polyester
